## Overall Requirements:

Our operations Department is looking for an experienced Electronic / Mechanical Assembler to perform various repair, rework, and assembly functions. This role requires attention to detail and the ability to work in a fast-paced environment.

## Responsibilities:

- Visually inspect PCB's for physical and/or other damage
- Perform electronic rework activities on through hole and surface mount components to IPC610 standards
- Perform rework activities at class 1, 2 and 3 levels
- Disassemble and Re-assemble various mechanical assemblies along with repairing physical damage to units as required
- Perform low level bench testing as required
- Document all work performed using system tools
- Understand and meet or exceed daily output requirements
- Expected to work in a safe manner in accordance with established operating procedures and practices
- Perform other job-related duties, as required

## Education & Experience:

- Electronic Technician/Technologist Diploma an asset
- Equivalent years of relevant work experience within electronic assembly

## Additional Qualifications:

- Good hand-eye coordination and manual dexterity
- Strong attention to detail is essential
- Previous or current IPC610 certification
- Working knowledge of various hand tools
- Strong interpersonal and communication skills are essential
- Ability to document clearly & concisely and follow written and verbal instructions is essential
- Ability to prioritize and complete work in a timely fashion
- Ability to listen and communicate with peers at all levels within the organization
- Ability to work overtime, as required
- Health and Safety conscious
- Autonomous self-starter: can anticipate what needs to be done before being asked
